PROFESSIONAL SUMMARY

Results-driven Global IT Project Manager with 10+ years of experience leading complex, large-scale technology projects and programs across SaaS, e-commerce, and enterprise operations. Expert in utilizing appropriate project management methodologies (Agile, Scrum, Waterfall) and adhering to strict PMO guidelines to ensure projects are delivered on time, within budget, and per stakeholder requirements. Proven ability to synthesize complex technical concepts, negotiate vendor Statements of Work (SOW), and effectively present ideas to C-level executives. Highly proficient in enterprise PM tools including Jira, Smartsheet, and MS Project Pro, dedicated to establishing cross-functional collaboration and delivering strategic business objectives.

CORE COMPETENCIES

CORE COMPETENCIES

* Project Management Methodologies: Agile, Scrum, Waterfall, SDLC, PMI Framework, Change Management.

* Project Delivery & PMO: Scope Definition, Budget & Financial Forecasting, SOW Negotiation, Risk Escalation.

* Cross-Functional Leadership: Stakeholder Management, C-Level Presentations, Weekly Status Reporting.

* Technical Integration: Enterprise Applications (ERP/SCM/CRM), Data Engineering, Infrastructure Technologies.

PROFESSIONAL EXPERIENCE

Ecoverse Solutions — IT Project Manager (IT Systems & Operations)
Jan 2026 – Present | City of Industry, CA

* Lead and manage complex IT projects by strictly adhering to PMO guidelines for the full lifecycle—Initiating, Planning, Executing, Monitoring & Controlling, and Closing—to successfully deliver a custom digital queuing system.

* Prepare weekly project status reports and manage approved budgets, providing accurate financial forecasting and presenting real-time actionable insights to C-level executives.

Independent IT Systems Consultant
Sep 2023 – Dec 2025 | Los Angeles, CA

* Negotiated, assessed, and managed vendor Statements of Work (SOW) and performance, working closely with cross-functional teams to gather requirements and define project scope for omnichannel platforms.

* Synthesized complex data engineering concepts to ensure seamless ERP/SAP integrations, effectively utilizing Agile methodologies to tie technical deliverables back to enterprise business objectives.

Cafe24 Corp — IT Product Manager / Systems Architect
May 2017 – Mar 2023 | Seoul, South Korea

* Large-Scale Project Execution: Managed large-scale, cross-functional global IT programs (300+ APIs), utilizing Jira (6+ years) and Smartsheet to ensure objectives were accomplished according to plan and stakeholder expectations.

* Meeting Facilitation & Tracking: Coordinated and facilitated weekly team meetings, preparing agendas, minutes, and action items to ensure all tasks progressed to completion during complex ERP and SCM system integrations.

* Documentation & Change Management: Developed and managed all project-related documentation in Confluence, ensuring any changes in the product lifecycle were properly documented and escalated for approval.

* Data Engineering & BI: Designed a data-driven "Watchtower" system to monitor infrastructure performance; utilized PowerBI and SQL concepts to build dashboards and communicate operational efficiency to senior leadership.

WEMAKEPRICE — Project Manager (Global E-commerce & Logistics)
Sep 2014 – May 2017 | Seoul, South Korea

* Led assigned IT projects for US and Japan warehouse operations, collaborating with external partners to gather requirements and establish initial SCM/ERP business processes.

* Managed end-to-end cargo operations by utilizing root-cause analysis and problem-solving skills, successfully identifying priorities and implementing workflow automation to increase efficiency by 25%.
